

Project Manager

ACP, Inc. is a national provider of contract and project based labor solutions to the telecommunication and utility industry for network infrastructure build-outs and maintenance. We are looking for an experienced Project Manager for full-time work out of our Charlotte, NC office. We require individuals with knowledge and experience with project managing of large telecom deployments from inception to completion. Individuals must demonstrate a knowledge of DWDM, CWDM and SONET fiber rings and the products and services of Broadband Service providers. OSP experience is a plus.

Job Description

Project manager will ensure that a contract for products/services is delivered to the satisfaction of the customer and company. Project Managers will coordinate with company and customer to develop project plans, determine resource requirements and schedule all assets of the project from inception to completion. Project Manager will manage and track expenditures and communicate status and requirements to company and customer. Manage and monitor status of all labor and components and verify that work is completed to customer's satisfaction. Achieve operational objectives by contributing information and recommendations to strategic plans and reviews. Prepare and compile action plans, resolve problems and implement change. Track and report all materials and inventory to customer and company. Act as lead person for sales opportunities and explore and provide business development opportunities for the company. Report directly to management for customer and for company.

Minimum Requirements

- Bachelor's Degree or higher, at least 5 years of related experience.
- Must be very conscientious, accurate, detail oriented and self-motivated.
- Must have excellent verbal and written communication skills
- Proficient in MS Excel, Power Point, Word and Outlook.
- Experience managing technicians in a telecom environment.
- Ability to produce/use, project-related documents and documentation standards required of a Project Manager (SOW, MOP, Project Plans, schedules, drawings)
- Ability to work in the field at times to ensure proper work and safety requirements.

- Able to occasionally travel and stay overnight if project requires.
- Must be legally authorized to work in the United States of America.
- Must have valid driver's license and an excellent driving record

If you possess these skills and requirements and would like to earn top pay in an exciting and ever changing career, please contact us for an immediate appointment.
